As a long time resident of NC I am ashamed, disappointed in many in our state government, and extremely upset with YOU Gov. Cooper for caving in and approving this VERY unnecessary pipeline project. Just when I thought I had some optimism with a person like yourself now governing this great state, you have let me and the remaining 80% of the people of NC down!! You know as well as many others in this fossil fuel industry, that there is NO NEED for ANY more fossil fuel investment in this state or in this country for that matter. I am just so VERY disappointed with you for placing all of us now in direct motion for further pollution, Co2 emission increase, but most importantly, placing all those in the path of this disaster who can least afford to loose what they have. Shame on you Governor!!!
